Salt Lake City, Utah 84116

Subject: Geneva Rock Products, Inc., Sage Canyon Mass Excavation Project
RDCC Project No. 09-10911

Dear Ms. Dean:

The State of Utah, through the Public Lands Policy Coordination Office (PLPCO), has reviewed this project. PLPCO makes use of the Resource Development Coordinating Committee (RDCC) for state agency review of activities affecting state and public lands throughout Utah. The RDCC includes representatives from the state agencies that are generally involved or impacted by public lands management. Utah Code (63J-4-501 *et seq.*) instructs the RDCC to coordinate the review of technical and policy actions that may affect the physical resources of the state and facilitate the exchange of information on those actions among federal, state, and local government agencies. The Division of Air Quality provides the following comments:

Division of Air Quality

Rock crushing equipment located on site will require an Approval Order (AO) from the Executive Secretary of the Air Quality Board. A permit application, known as a Notice of Intent (NOI), should be submitted to the Executive Secretary at the Utah Division of Air Quality at 150 N. 1950 West, Salt Lake City, Utah, 84116 for review according to R307-401: Permit: Notice of Intent and Approval Order, of the Utah Air Quality Rules. The guidelines for preparing a NOI are available on-line at:

<http://www.airquality.utah.gov/Permits/FORMS/NOIGuide8.pdf>.
